OPTiM Meeting, a simple collaboration service, has started
With simple browser interface & no troublesome monitor/projector connection
Free 5 member meeting, or standard version provided only at 980 JPY/month

Tokyo (July 14, 2015) – OPTiM (TSE Mothers: 3694), a leading provider of business-related applications for smart devices, proudly announces that it is providing OPTiM Meeting, a simple collaboration service from July 14, 2015. This is one of the services supporting OPTiM's idea of Remote Experience Sharing, an environment that allows everyone to remotely share experience (knowledge, know-how, and information) with individuals/groups in real-time.

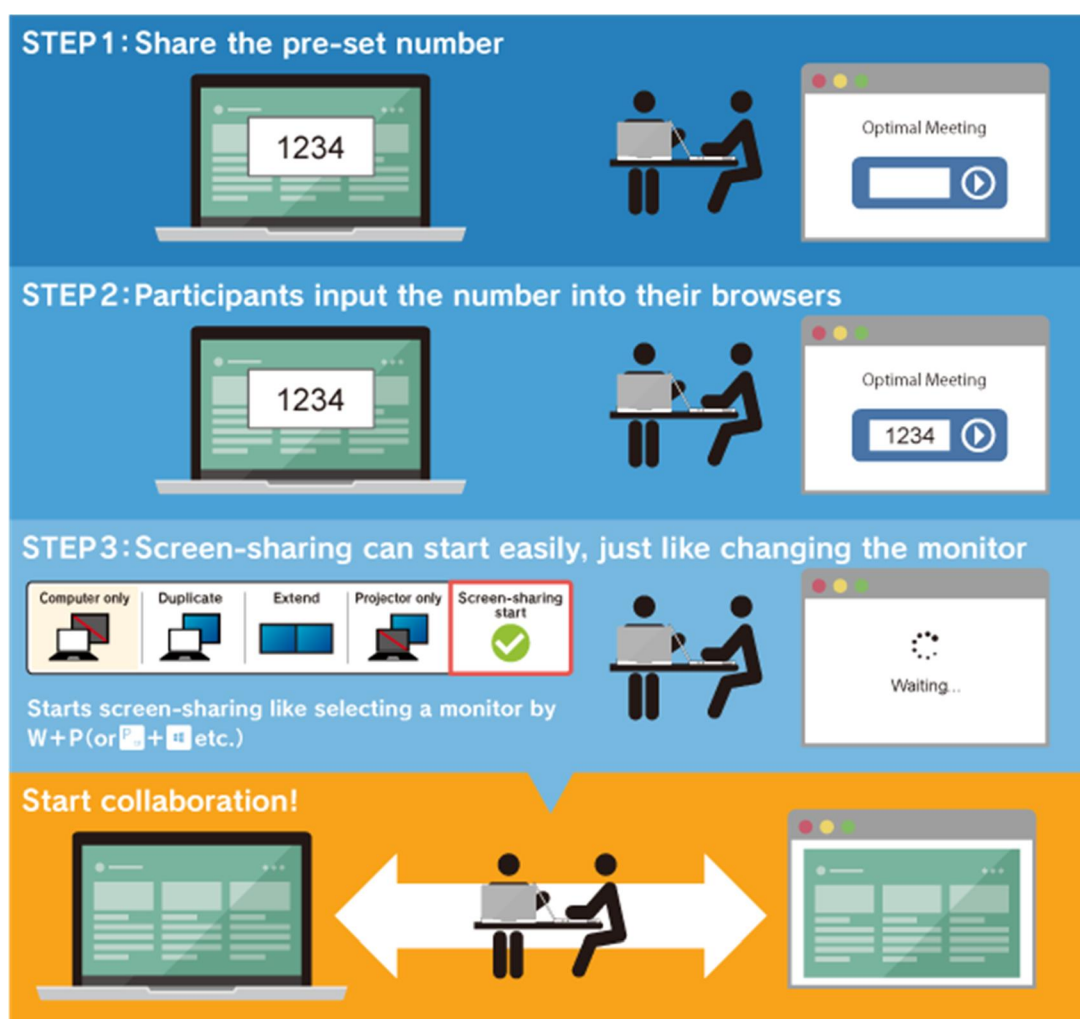

Start your meeting in a flash
OPTiM Meeting
Easier than a Web conference system

■About OPTiM Meeting

OPTiM Meeting is a service that allows starting screen-sharing more simply than connecting to a monitor or a projector. Participants can easily enjoy screen-sharing and collaboration just by entering the number pre-issued by the meeting sponsor. This makes the complicated starting procedure of conventional Web conference system much simpler, and a Web meeting can be held conveniently without any registration or installation. Moreover, because this service supports multiple OSes, it can be utilized in a cross OS environment with browsers not only for Windows® but also for iOS, Android™, Mac OS X etc.

Press Release

OPTiM®

■3 easy steps to start OPTiM Meeting

A meeting can be started by simple operations, just requiring the meeting sponsor to issue a meeting number and participants to enter it on browser. You can start screen-sharing just like changing a display.

■Main features of OPTiM Meeting

- Windows® screen-sharing：
  Views Windows® screen from other device

- Quick start：
  Quickly starts screen-sharing via the Keyboard shortcut extending Windows® button+P (monitor switching shortcut).

- Multi-browser viewer
  A function to view a shared screen by browsers of not only Windows® but also Android™, iOS, Mac OS X etc.
